

Telephone Services

Telephone Number - 35

Create a work-life balance by separating your personal and work telephone numbers. Take advantage of a prestigious 212 number that forwards to your personal number. Never give a client your private number again so your business day can end when you decide.

Telephone Handset - 90

For those that work in one central location, a telephone handset with a private 212 number is the ultimate tool for handling your calls. Whether you work from our workspace or a remote location, you can enjoy clear and reliable reception with all of the features of a traditional handset.

Call Answering - 75

Elevate your image with live call answering. There is no need to stop what you are doing for a spam call again. Whether you use our phone service or work from a cell phone, our operators can seamlessly transfer your calls without a delay.

Call Screening - 125

Avoid unwanted callers when our operators provide you with their name before they transfer. You will be given the option to have us pass the call through to you or to your voicemail. We can even take messages and email them to you, +\$1.50 per message.

Auto Attendant - 30

This is the perfect solution for a company that has multiple employees working from one main telephone number. Calls can be easily forwarded to any employee.

All rates are monthly. Services subject to start-up fee.
